Vertex™ Series
SINGLE, SELF-CONTAINED LIGHTHEAD

Whelen's Vertex Series offers three different optical light output models to direct light anywhere it's needed. These small Super-LED® lightheads install easily with a 1" hole and utilize an in-line lamp driver.

VTX3609R

VTXD609C

VTX609B

FEATURES

- Available in single color or split color
- 25 Scan-Lock™ flash patterns
- Synchronizable to other Whelen sync products
- Lamp and in-line lamp driver are fully encapsulated for moisture and vibration resistance
- Mounts vertically or horizontally via two screws
- Optional surface mount flanges available in Black or Chrome for models VTX9, VTX609 and VTXD609 allow for mounting virtually anywhere
- Simple installation with no separate lamp drivers, flashers, ballast, or power supplies
- 1" hole makes this LED module backwards compatible to HA238 and standard 1" Hide-A-Way strobe style lamps
- Virtually no RFI/EMI noise emitted, meets CISPR25
- 10-16 VDC
- Includes a 9' pre-wired and sealed 4-C/22 gauge cable with power, pattern, and synchronize wires
- 10-year warranty

VTX9
- Omni-directional lighthead
- Produces light in a hemispheric pattern
- Mounts internally within composite headlight and taillight assemblies

VTX3609
- Side emitter lighthead
- Produces light in a 360° side emitting pattern
- Mounts internally within composite headlight and taillight assemblies

VTXD609
- Directional lighthead
- Produces light in an upward pattern
- Includes side emitting reflector for use internally within composite headlight and taillight assemblies

VTX609*	Single color, omni-directional
VTX9#	DUO™ color, Amber/White, Blue/White, Red/White, Red/Blue, Amber/Blue or Red/Amber omni-directional
VTXFB	Black flange kit, surface mount, omni-directional
VTXFC	Chrome flange kit, surface mount, omni-directional
VTX3609*	Single color, side emitter
VTX3609#	Split color, Amber, Blue, Red, or White, side emitter
VTXD609*	Single color, directional
VTXFB	Black flange kit, surface mount, directional
VTXFC	Chrome flange kit, surface mount, directional

Replace * symbol in model number: A = Amber, B = Blue, R = Red, C = White

Replace # symbol in model number: D=Red/White, E=Blue/White, F=Amber/White, J=Red/Blue, K=Red/Amber, M=Blue/Amber
